Alcan's New Cruising Houseboat The 'ALCAN 290'

The all-Canadian 'ALCAN 290' comes as a new concept in boat design, combining the performance demanded by experienced mariners with the safety, comfort and ease of handling required by those who are on the lookout for a floating holiday home. With sleeping accommodation for up to six people, the boat represents the best value available on the market.

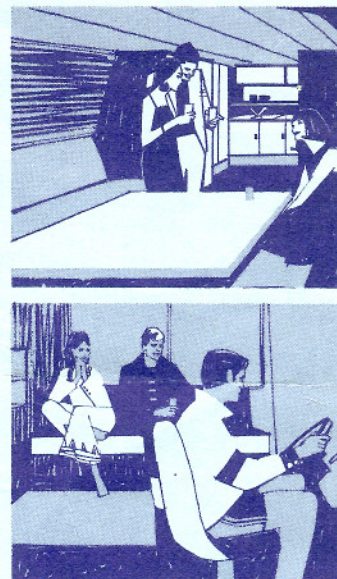

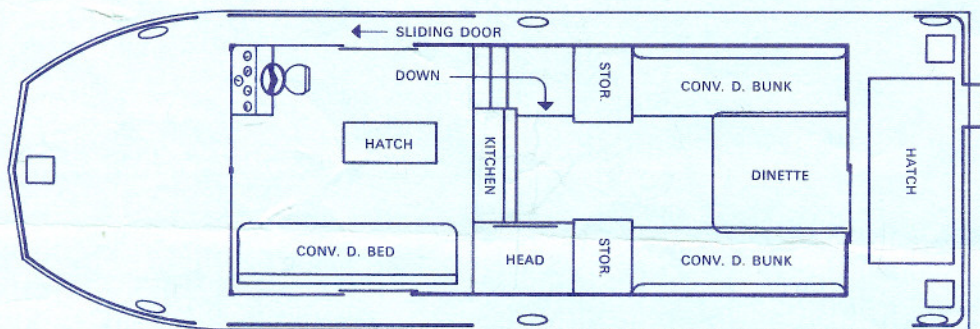

Designed for cruising in inland waterways and coastal waters, the 'ALCAN 290' is extremely stable and can turn in its 29-foot length. The

hull and decks are built of heavy-gauge marine aluminum that is tough, strongly resistant to corrosion, and virtually maintenance free. Heavy-duty marine-type windows ensure a safe dry boat.

Bad weather poses no problems: 500 lb of polyurethane, foamed and securely bonded up to the gunwales, provides a floatation force of over 12,000 lb — 5,000 lb more than the weight of the boat. In short, the boat is almost unsinkable. Another advantage of the foam is that it damps engine noise to a gentle whisper.

'ALCAN 290' Specifications

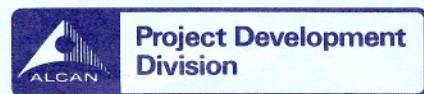

Length (Overall)		28'-8"
Beam		11'-9 1/4"
Freeboard	Forward	48"
	Aft	36"
Transom	Height from Waterline	36"
	Width	11'-9 1/4"
Walkways		16"
Draft		1'-9"
Cabin	Length	18'-10" (interior)
	Width	9' (interior)
	Height	6'-3" (minimum)
Deck		Aluminum
	Forward	6'
	Aft	3'-9"
	Sundeck	9'-6"
Overall Height		11'

Fuel Capacity		45 gallons (single engine) 90 gallons (dual engine)
Water Capacity		45 gallons
Hand Rails		Aluminum
Hull		Aluminum, polyurethane foam filled (12,000 lb. flotation)
Windows and Doors		Heavy-duty marine type. Anodised aluminum frames with safety glass.
Cabin Floors		Vinyl
Hatch Sizes	Forward	2' x 3'
	Aft	3' x 6'
Power		Single or twin 155 H.P. O.M.C. V-6 with O.D.
Weight		7,000 lb. approx., single engine
